Leetcode Profile

EDUCATION

- **East West Institute of Technology, Bangalore** 0
Computer Science and engineering(VTU) , Bangalore
- **DAV Public school sector-4,bokaro steel city** 0
CBSE,SCIENCE,Bokaro Steel City, Jharkhand
- **DAV Public School tenughat dam** 0
CBSE ,BS city,Jharkhand

PERSONAL PROJECTS

- **CHATLOOM** August/2023

- Tools & technologies used: Node.js,Socket.io
- Developed a real-time chat application using Node.js and Socket.io, enabling instant communication between users. Implemented features such as live messaging, real-time updates, and dynamic user presence indicators. The application provides a seamless and interactive chat experience, demonstrating strong skills in full-stack web development and real-time communication technologies.

- **Algorithm Visuals** Event dates

🔗 Project Link

- Tools & technologies used: React.js and some Sorting Algorithms
- Designed and implemented a sorting visualization application using React.js, showcasing algorithms like Bubble Sort, Insertion Sort, Merge Sort, and Quick Sort. The application provides a visual representation of sorting techniques, enhancing understanding and knowledge of fundamental computer science concepts. Demonstrated proficiency in front-end development and algorithmic problem-solving skills.

TECHNICAL SKILLS AND INTERESTS

Languages: C/C++,Java,Javascript

Developer Tools:IDEs , Visual Studio Code

Frameworks:Bootstrap , React.js, Node.js

Cloud/Databases:MySQL , Sql,MongoDB

Soft Skills:presentation skill, public speaking , Googling , TimeOptimization

Coursework:Full Stack Web Development(Internshala)

Areas of Interest:Artificial Intelligence Tools and Machine Learning

ACHIEVEMENTS

- Successfully Practice overed 300+ problems on coding platforms
- **LEETCODE** 250+ problems solved in Leetcode
- **INTERNSHALA** Succesfully completed Web Dev certification
